October Boosting Brief

OCTOBER OVERVIEW

Align your posts with what Paid is pulling **this month**:

- **Meta (early Oct)**: fall & Halloween — product in the first 3 seconds
- **Meta (mid-late Oct)**: holiday preview — trees, guest-ready, entertaining
- **TikTok**: pet, sideboards, Halloween, Wayfair Verified
- **Both**: evergreen in-room, in-use stories all month

STORY STRUCTURE

1 **Problem → product → benefit → soft CTA** — one clear arc; no filler.

2 **Match October themes** — use the overview list; film native, in-room stories (not sale-led spots).

DELIVERABLES CHECKLIST

- **15–45 sec** vertical video (Reels / TikTok) — *not* a carousel
- **Hook in 1–3 sec** — show the Wayfair product; you on camera, hands-on, or POV
- **Sound-off ready** — simple on-screen text; readable fonts; on screen long enough
- Caption hashtags: **#WayfairCreator** + **#wayfairelevate**; **#ad** when required
- Creator link in caption or bio if product stickers fail

CORE VIDEO CRITERIA

We boost creator-native vertical video: informal tone, bright clear footage, styled lived-in space; product visible early and **in use** (not unbox-only) with one clear benefit; brisk pacing and purposeful cuts — hold shots long enough to see the product. Seasonal or GTM moments are fine; we mainly boost **evergreen** stories, not promo-specific creative.

We usually pass on carousels, commercial-style ads, unboxing-only or unclear product, weak/late hooks, missing creator presence, dark or chaotic footage, decorative/hard-to-read on-screen text, and videos led by sales, codes, or limited-time offers.
