October Boosting Brief

OCTOBER OVERVIEW

Align your posts with what Paid is pulling **this month**. On **Meta**, lead with fall & Halloween through **early October** (porch, dining, livable spooky-neutral styling — product in the first 3 seconds), then shift to **holiday preview** mid-late October (trees, trim, guest rooms, entertaining). **All month on Meta**: evergreen any category — office, bath, outdoor, storage, seating — in-room, in-use stories.

On **TikTok**, prioritize **pet** (pet + product in frame; beds, washable rugs, pet-friendly furniture), **sideboards** (styled dining, entry, or living — in use, not unbox-only), **Halloween** (at-home styling, strong opening, product clear early), and **Wayfair Verified** (show badge on eligible SKUs). **Both platforms**: evergreen in-room, in-use video all month — not sale-led spots.

Shot ideas: Fall — porch refresh, cozy layers, dining, entryway, livable Halloween. Holiday — tree & trim, spare room, bath upgrades, entertaining, giftable accents. Evergreen — pet nook, sideboard styling, office/storage, outdoor living, Verified SKU.

MESSAGING INSPIRATION

- 1 Hook in 1–3 seconds** — problem, benefit, or discovery; show the Wayfair product immediately
- 2 One clear arc** — problem → product → benefit → soft CTA; one story, no filler
- 3 Product in use** — styled lived-in room, not unbox-only; one clear benefit or use case
- 4 You on camera** — face-to-camera, hands-on, or POV for trust and demo

- In room + in use · clear, native creator story
- Bright, easy-to-follow pacing — hold shots long enough to see the product
- **Sound-off**: simple on-screen text; readable fonts; on screen long enough
- **Evergreen**: seasonal mood is fine; we mainly boost evergreen stories — sales, codes, and LTO-led creative are usually outside the boost pool

DELIVERABLES CHECKLIST

- **15–45 sec** vertical video (Reels / TikTok), captioned — *not* a carousel
- Styled space; informal creator-native tone; brisk, purposeful cuts
- **Your captions**:
 - Reels/TikTok: include **#WayfairCreator** and **#wayfairelevate**
 - Add **#ad** when required (FTC disclosure)
- Creator link in caption or bio if product stickers fail

CORE VIDEO CRITERIA

We boost creator-native vertical video — informal tone, bright clear footage, styled lived-in space; product visible early and **in use** with one clear benefit. Seasonal or GTM moments are fine; we mainly boost **evergreen** stories, not promo-specific creative.

We usually pass on carousels, commercial-style ads, unboxing-only or unclear product, weak/late hooks, missing creator presence, dark or chaotic footage, decorative/hard-to-read on-screen text, and videos led by sales, codes, or limited-time offers.

APPENDIX

Content examples — boost-friendly (in room + in use)

Content examples — boost-friendly (clear product story)

Content examples — usually skipped (unboxing only)
