

Boosting Partnership — compensation & tiers

Wayfair Creators · paid boost on Meta & TikTok

How you get paid

When your post is **selected for paid boost**, you receive boost compensation based on your **tier**. Rates below are per **calendar month**: one payment for the first selected boost that month, then a lower rate for each additional selected boost in the same month.

Tier	First boost in month	Each additional boost (same month)
Entry	\$100	\$50
Tier 2	\$150	\$50
Tier 3	\$200	\$75

Tier benefits

Entry

- Monthly **boosting brief** (what Paid is pulling on Meta & TikTok)
- Access to **Creator town halls**

Tier 2

- **\$25–\$50 bonus** on selected content, when applicable
- **Category product gifting** when the monthly brief calls for specific content — e.g. sideboards for a TikTok push; product is gifted within that category, not for every post

Tier 3

- **@wayfaircreators** link exposure on selected boosted posts
- **Highlighted creator** in program communications each month
- **Competitions** and special challenges when the program runs them

Good to know

- Selection follows the monthly brief and creative fit; not every eligible post is boosted.
- Bonuses and gifting apply only when the team designates a post or brief need — not automatic on every boost.
- Tier placement and program rules are set by the WBP team and may be updated.
