

Wayfair Boosting Brief - October 2026

For: Wayfair Creators Boosting Partnership (WBP)

Send date: Late September / early October 2026

Purpose: Align your October content with what our Meta & TikTok boosting partners are actively looking for.

What we're boosting this month

Paid social is continuing fall and Halloween-leaning creator videos from recent batches into early October, then shifting toward holiday preview content to warm up the season. Throughout the month we also want evergreen videos - strong product stories that are not tied to a specific sale or holiday hook.

October mix (Meta / TikTok)

Priority | What to film | When

|-----|-----|-----|

1 - Fall & Halloween | Cozy layers, fall decor, entryway/porch, dining setup, spooky-neutral Halloween styling | Early October (carryover from September selections)

2 - Holiday preview | First holiday touches: trees & trim, entertaining prep, guest-ready spaces, giftable furniture/decor shown in room | Mid-late October

3 - Evergreen | Any strong in-room, in-use Wayfair story (office, bedroom, outdoor living, storage, rugs, seating) | All month

Reminder: We boost content that feels like native creator video and could run as a paid ad. Evergreen storytelling wins over promo language (codes, "limited time," sale graphics). Seasonal *mood* is welcome; sale-specific creative is not our main boost pool.

Priority categories & moments

Use these as creative direction - not a shot list. Show Wayfair product early, in a real, styled space, with you demonstrating or reacting.

Fall & Halloween (early October)

- Living room / bedroom fall refresh (throws, pillows, rugs, lighting)
- Entryway & porch - seating, planters, mats, decor
- Dining & hosting - tables, chairs, serveware, centerpieces
- Halloween-at-home - styled but livable (not gore-forward); product clear in frame

Holiday preview (mid-late October)

- Tree & trim - setup, storage, ornaments, tree collars/skirts
- Guest-ready - spare room, air mattresses/sofa beds, bath upgrades, extra seating
- Entertaining - bar cart, dining extensions, kitchen organization
- Cozy giftable pieces - accent chairs, side tables, lamps (shown in use, not "unbox only")

Evergreen (always on)

- Outdoor living - still strong year-round where weather allows; patio refresh, fire pit seating, outdoor rugs
- Home office & storage - desks, shelving, bins, "problem -> solution" hooks
- Bed & bath - upgrades with a clear before/after *story* (not just product on the floor)

Shopping moments to inspire you (not scripts): fall nesting, pre-holiday hosting prep, Way Day-era home projects - tell a product-in-room story without leaning on sale copy.

What makes content boost-friendly

WCP Elevate videos can be boosted as paid ads on Meta and TikTok. We select posts that look like creator content, not commercials.

- | Guideline
- |---|-----|
- Length | 15-45 seconds - enough for problem -> product -> benefit -> soft CTA
- Format | Vertical video (Reels / TikTok). Carousels are not what we boost for paid.
- Opening | Hook in 1-3 seconds - state a problem, benefit, or discovery; show the product
- You | Face-to-camera, hands-on, or POV
- Product | Wayfair item obvious and early, used in a styled, lived-in space
- Pacing | Brisk and easy to follow; purposeful cuts; hold shots long enough to see detail
- Captions | Assume sound off - especially on Meta; simple, readable text
- Tone | Informal, bright, native - not a polished TV ad

Eligibility hashtags: `#WayfairCreator` and `#wayfairelevate` (both in caption). Use your normal paid partnership disclosure when required (e.g. `#ad`); program eligibility follows the two tags above.

Boost-friendly

- Clear product story: <https://www.instagram.com/reels/DctN7D8RQub/>

Usually not boost-friendly

- Unboxing only: <https://www.instagram.com/reels/DdRcdZFNG2Z/>
- Hard-to-read overlays: <https://www.instagram.com/reels/Dc6vthxxl5w/>
- AI-looking / screen recording / unclear product: see program guidelines for links

How selection works

We heard you in the September 2026 boosting survey (17 responses). Top barriers were: not knowing if content will be selected, unclear what Wayfair wants, needing more products to feature, and compensation clarity. 12 of 17 said more guidance would help them post more consistently.

What to expect

- We get more eligible posts than we can boost; October picks follow the priority table

above plus creative fit.

- We aim for range - styles, rooms, and price points - not one "look."
- Following this brief does not guarantee boost, but it matches what Paid is actively pulling for Meta/TikTok right now.
- Selection ≠ live boost every time: some posts are held for testing or deprioritized if creative doesn't meet ad performance needs; we're working on clearer status in dashboard/comms over time.

Practical tips from your peers

- Invest in evergreen pieces you'd be proud to leave up if not selected (several creators noted `#ad` + non-selection hurts reach).
- Linking: if Reels product stickers fail, use your creator link in caption/bio and call it out on video; we know tagging is frustrating.
- Gifting: WCP gifting and smaller pre-season picks help when you don't have enough product on hand - watch program email for windows and status.

You asked, we're addressing

You said | October brief / program response

|-----|-----|

"What content gets boosted?" | This doc + Paid's October mix (fall/Halloween -> holiday preview + evergreen)

"Consistent hashtag rules" | Eligibility = `#WayfairCreator` + `#wayfairelevate`; disclosure separate

"Video length?" | 15-45 sec vertical video

"More transparency when not selected" | Monthly brief as shared criteria; town halls for Q&A [add date if scheduled]

"More products / gifting" | Use WCP gifting when open; prioritize in-room stories with what you have

"Pinterest / other formats" | Boosting pool is vertical video on Meta & TikTok; Pinterest not in paid boost pool today

"Cash vs gift cards" | Gift cards remain core boost compensation; leadership reviewing mixed incentives - no change announced in this brief

Your October checklist

1. Early month: Ship 1-2 fall/Halloween reels with product in the first 3 seconds.
2. Mid-late month: Ship 1-2 holiday preview reels (evergreen tone, no sale copy).
3. Anytime: Ship evergreen in-use room content (outdoor, office, storage still welcome).
4. Caption: `#WayfairCreator` + `#wayfairelevate` + required disclosure.
5. 15-45 sec, vertical, captioned, you on camera or hands-on.

Thank you for building with Wayfair - we're excited to see what you make this October.
